HENDERSON, 1113 F St., OPPOSITE COLUMBIA THEATER,

Is pleased to announce the final completion of the extensive improvements to his store, which have been going on since last fall, until now we have what is acknowledged to be the most perfectly arranged and finely appointed decorative store in this country. All this has been made possible through the liberal support of the public. This patronage has been constantly increasing, that of the year just passed being the largest in the history of the store.

This flattering increase only strengthens our belief that truthful representation is always safest and best. We have decreased our percentage of profit, as our business has increased until today it is possible to buy here the very best decorative productions at a lower margin of profit than anywhere

It will be, as it always has been, our aim to give to our customers the best article, both in style and quality, for the price.

Commencing Thursday, March 22, we will place on sale a comprehensive assortment of Wall Papers, Fabrics, Furniture, Rugs, Draperies, Curtains, etc., all selected for their artistic merits, both in styles of design and colorings, and in the future we will be in a position to take complete charge of the interior decoration and furnishing of the home.

We employ trained artists to devise color schemes for interiors, and if necessary make colored sketches of same.

BALCONIES AS PROJECTIONS

Approval of Recommendation of Dis-trict Building Inspector. Upon the recommendation of the inspecor of buildings, Mr. John B. Brady, the District Commissioners have decided to in-

clude balconies in the schedule of projections. They have also decided to limit the projection of the same to three feet on business and other streets less than seventy feet wide, and four feet on resident streets seventy feet or more in width, making them unlimited as to length, except that there shall be preserved at each end

that there shall be preserved at each end not less than nine inches of wall space from the party line.

Mr. Brady, in making his suggestion, stated that balcony projections have been permitted, inasmuch as they are open constructions, and their elevation so far above the grade as to offer no obstruction. But he suggested, and his suggestion has also been approved by the Commissioners, that they shall be designated in the schedule of "limitations and provisions relative to the projection of portions of buildings beyond the building line," and restricted in the same manner as other projections, which are therein provided for.

WAIVES EXAMINATION. B. M. Winters Held for Action of the

B. M. Winters, the former employe of the United States coast and geodetic survey, who was arrested Saturday last on charge of abstracting and destroying government property, was ordered before United States for a hearing. He waived examination an for a hearing. He waived examination and was committed to jail in default of \$2.00 ball to await action by the grand jury. Winters, it is alleged, abstracted twenty blank checks from the treasury, fifteen of which he is said to have destroyed. A check for \$82, signed by "J. B. Irwine, disbursing officer, coast and geofetic survey," and made payable to B. M. Winters, led to the arrest, there being no such person as "J. B. Irwine" employed in the survey service.

ADMIRAL SAMPSON'S SUIT. Proceedings Today in Action for Re-covery of Prize Money. In connection with his suit for the re-

covery of prize money, Admiral Sampson through Attorneys McCammon and Haythrough Attorneys McCammon and Hayden, has petitioned the court for a rule requiring the Secretary of the Navy to furnish the court with certain papers for use as evidence in the cause. The libellant desire the production of cutries in the log of the U. S. S. Valican from September 19 to November 1, 1898, and also the record of the court of inquiry upon the loss of the vessel Infanta Maria Teresa, held at Norfolk, Va., during the latter part of November and early part of December, 1898. The special counsel for the United States consenting, Justice Hagner, holding the District Court, today signed an order directing the Secretary of the Navy to furnish the papers desired.

ADVISABLE AND ECONOMICAL Report on the Proposed Improvement of Eleventh Street.

Mr. Leo Simmons, president of the Columbia Heights Citizens' Association, re-cently asked the District Commissioners to recommend an appropriation of \$30,000 for grading and regulating 11th street from Florida avenue to Lydecker avenue, as extended by the act of Congress of March 3. 1800. Mr. Simmons expressed the opinion that 11th street, as extended and when improved, wi'l form one of the most convenient and practicable thoroughfares connecting the city with the suburban section to the northward. He invited attention to the fact that in the condemnation proceed-ings the jury awarded the sum of \$296,000 as damages, one-half of which amount, \$133,000, has been assessed against the propas damages, one-half of which amount, \$133,000, has been assessed against the property within 200 feet of said street as opened, and which assessment, he declares, is the largest that has been made against any property at any one time in the District.

The matter was referred to the engineer department, from which a report has been received estimating the cost of the improvements desired at \$34,850. As to the advisability of the work, the department states that the actual opening of the street would realize to the property and to the District the benefit of the large sums expended for purchasing the right of way. It is also stated that the large amount of grading which is involved can at this date be disposed of in low ground in the vicinity, and which, if the work be postponed, would not be so conveniently available. It might easily happen, it is further stated, that such postponement, would very largely increase the cost of grading. In conclusion the department expresses the belief that the work is advisable and economical, if practicable to execute it at this time or in the near future.

This report has been approved by the Commissioners, although they have not yet asked for the necessary funds.

Convicted of Theft. Sarah Hackenzous, who was arrested yes terday on a charge of stealing two musical nstruments and a skirt from the house of Otto H. Ullrich, where she was employed, was tried in the Police Court today. Judge Kimball fined her \$10, with thirty days in jall in default. Her little daughter, who accompanied her to the police station at the time of her arrest, will be cared for by the board of children's guardians until the wo-man is released.

In the case of Policeman J. P. Welsh, recently found guilty of intoxication and ne-glect of duty, Maj. Sylvester, the chief of police, has recommended that the man be fined \$10; that he be transferred, and warn-ed that a repetition will work more serious consequences, and this recommendation the Commissioners have approved.
